While the locations are accurate, the shape or dimensions have been derived from other map sources. Therefore, the sites or land parcels indicated on these maps should not be scaled or used for measurements or to establish location of areas and related measurements. For any reference related to village or parcel boundaries, or area measurements or boundaries, the respective revenue records and relevant land records from the respective offices shall be referred to and these shall prevail in the context of the Base map and/or existing land use map.
3. All village outlines and road alignments as interpreted from satellite imagery prepared in year 2012 and 2015 (for Cloud area) and actual situation as per ground truth/conditional measurement survey shall prevail.
4. All village revenue maps overlaid on base features have been incorporated from satellite image and other sources are only indicative and are helpful in view planning and measured errors in scaling, geo-referencing, edge-matching and stitching.

8. Forest extent as per data provided by concerned agency. Any discrepancy in the extent of forest and the ground reality/situation shall be attended/addressed by concerned agencies on case to case basis.
